Task 4 — Firewall Configuration (Simulated)

README

```
# Task 4 — Firewall Configuration (Simulated)
```

Firewall Configuration Report

```
# Firewall Configuration Report
A basic firewall setup was simulated. Specific ports were blocked and allowed to demonstrate rule creation and testing.
```
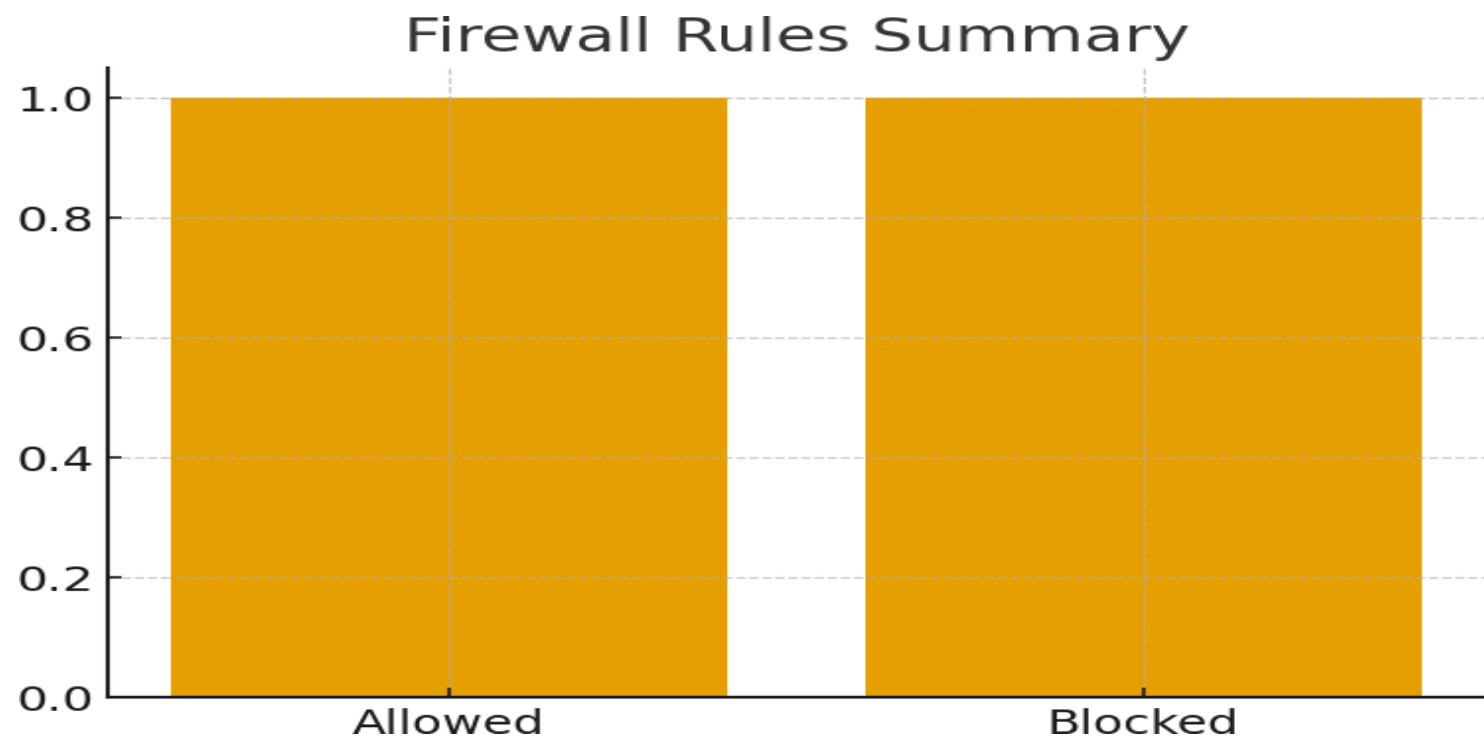

Execution Steps

```
# Steps
1. Listed firewall rules.
2. Blocked Telnet (port 23).
3. Allowed SSH (port 22).
4. Verified connectivity changes.
5. Removed temporary rules.
```

Simulated Rules

```
Simulated Rules:
- Block inbound 23 (Telnet)
- Allow inbound 22 (SSH)
```
